The duration of the life of Wego Terumo JV is for 20 years.

WPD will be the exclusive distributor in the PRC market for Wego Terumo JV for dialysate and other PD related devices.

Reasons for and benefits of the Framework Agreement and JV Agreement

In the PRC, approximately 1,500,000 people are suffering from End-Stage Renal Disease (“ESRD”). The figure is estimated to reach approximately 3,000,000 by 2020. And, over 20,000 ESRD patients are currently receiving peritoneal dialysis therapy, forming the world largest PD market. The PD patient population is estimated to grow at 40% per year and reach approximately 300,000.

Terumo has been promoting the dissemination and expansion of PD since it began the development of CAPD system in 1980. Terumo has been leading this field by providing innovative technologies including Japan’s first neutralized dialysate and endowing educational courses at Tokyo University to contribute to the dissemination of PD.

By leveraging on Terumo’s technology and expertise in peritoneal dialysis and the Group’s strong market presence with nationwide sales network, the Group will be able to serve the patients in China with high quality, cost-effective integrated products offerings allowing the Group to enter and grow PD business in fast growing peritoneal dialysis market in the PRC.
